

## Data Updates and Revisions

Date	Release Type	Description	Status
3/27/2026	SDA	<p>Today's database update corrects the following issues:</p> <ol style="list-style-type: none"> <li>1. Decimal point error in HOMPX* variables (present in 3/20/2026 update).</li> <li>2. Decimal point error in PJOB, PSSA, PSTK</li> <li>3. Error in YTL50 for data between 197910 to 198602: YTL50 now consistently reports if the respondent's income is above or below median, as specified in the codebook; some earlier vintages of the database YTL50 erroneously reported income quintiles, which are separately reported in YTL5.</li> <li>4. A small number of historical values of PX1Q2 and PX5Q2 from between between 202404 and 202511 have been revised to correctly reflect internal editing, topcoding, and bottomcoding. Note that historical aggregate estimates are unaffected and unrevised.</li> </ol>	Updated on 3/27/2026
3/20/2026	SDA	<p>Revisions were applied to historical microdata for the following variables for some observations between 202404 and 202511:</p> <ol style="list-style-type: none"> <li>1. NUMKID has been revised to distinguish respondents who reported having no children from respondents who did not provide a response to the question on whether or not they have children.</li> <li>2. A small number of values of PX1 and PX5 have been revised to correctly reflect internal editing, topcoding, and bottomcoding. Note that historical aggregate estimates are unaffected and unrevised.</li> </ol>	Revisions completed on 3/20/2026 12:20pm. PX1Q2 and PX5Q2 values for affected observations will be revised in a future update.
3/20/2026	SDA	<p>Data from December 2025, January 2026, and February 2026 added to the archive</p>	Updated on 03/20/2026 12:20pm.
12/15/2025	SDA	<p>For observations where METHOD==2, values of EHSGRD and ECLGRD have been corrected; the affected cases are from April 2024 through September 2025 only. They are now harmonized with the primary educational attainment variable, EDUCATION. There are no changes to any values of EDUCATION from the previous version of the database.</p>	Revisions made on 12/15/2025.

Date	Release Type	Description	Status
12/15/2025	SDA	For all observations where METHOD==2, INCQFM, HOMEQFM, and INVQFM have all been set to all missing on a temporary basis; the affected cases are from April 2024 onward. We are in the process of re-generating these variables using paradata and will repopulate these variables when that process is complete.	Revisions made on 12/15/2025. Repopulation of values pending.
12/15/2025	SDA	For CASEID 183920 from September 2003, REGION was changed from 6 to 4 to correct a typographical error.	Revisions made on 12/15/2025.
12/15/2025	SDA	Data from November 2025 added to the archive	Updated on 12/15/2025 at 10:00am.
10/3/2025	SDA	Today's update of the archive retroactively implements a topcoding of household income at \$500,000 that affects a handful of cases between June and December of 2024. Note that income data for 2025 have already been topcoded. No other historical data was changed.	Revisions made on 10/3/2025.
10/3/2025	SDA	Data from October 2025 added to the archive	Updated on 10/3/2025 at 10:30am
9/17/2025	SDA	Data from September 2025 added to the archive	Updated on 9/17/2025 at 4:00pm.
8/8/2025	SDA	Data from July 2025 added to the archive	Updated on 8/8/25 at 10:00am.
6/27/2025	SDA	Today's update of the archive corrects values of the variable DATEPR for 7 cases in 2017, as well as values for DATEPR and IDPREV for a single case in 1990. No other historical data was changed.	Revisions made on 06/27/2025.
6/27/2025	SDA	Added DATEPR and DATEPR2 to SDA dataset	
6/27/2025	SDA	Data from May and June 2025 added to the archive	
5/2/2025	SDA	Added IDPREV2, DATEPR2, SAMPLE, METHOD, WT_HH, WT_QUINTMED to SDA dataset. DATEPR2 was created but left blank until the upload done in June 2025.	
5/2/2025	SDA	Data from April 2025 added to the archive	
2/21/2025	Aggregate estimates	There was a minor technical error in the generation of weights used to aggregate estimates for January 2025 only. Note that overall, the differences between the estimates originally released and the revised estimates are almost negligible. Please see Revisions to Estimates (2025) for more details.	<a href="#">Revisions made on 2/21/2025.</a>
2/21/2025	Aggregate estimates	Historical data for Table 46 Expected Change in Home Values During the Next Year (time series variables named HOMPX1_*) for May 2024 through December 2024 will be updated to correct an intermediate data processing issue. On 10am on Friday, February 21, the estimates published in the February 2025 final release databook, along with all tables and charts that appear that appear on our websites will reflect these revisions.	<a href="#">Revisions made on 2/21/2025.</a>

<b>10/27/2023</b>	Aggregate estimates	<p>There was a minor technical error in the generation of the weights used to compute aggregate estimates between November 2022 and September 2023. We have since corrected the weights. The revised estimates in the October 2023 final release databook, along with all charts and tables that appear in the summary report, our main site (<a href="http://www.sca.isr.umich.edu">www.sca.isr.umich.edu</a>), our data site (<a href="http://data.sca.isr.umich.edu">data.sca.isr.umich.edu</a>), and our microdata repository (<a href="http://sda.umsurvey.org">sda.umsurvey.org</a>) reflect these revisions. Overall, the differences between the estimates originally released and the revised estimates are almost negligible, as seen in the comparisons below. We are notifying users of this correction in keeping with our commitment to the transparency, accuracy, and integrity of the data we provide to the public.</p>	<a href="#">Revisions made on 10/27/2023.</a>
